

Interactive Graphics - Do it yourself -

Heike Hofmann
stat/engl 332

Processing

- open project initiated by Ben Fry and Casey Reas
- available at www.processing.org
- download file
<http://processing.org/download/processing-1.0.9.dmg>

please start download now ...

Have a look around ...

- ... wander through the exhibition for a couple of minutes ...
- ... which piece did you like?

some data examples

- <http://benfry.com/zipdecode/>
- <http://benfry.com/salaryper/>
- <http://benfry.com/allstreets/>

Start processing ...

- by double-clicking the icon
- an empty sketch will open
- pick an example from the library
- run it

Today's lab

- In Adobe Illustrator, sketch a graphic based on the health care data (you can re-use your previous display)
- Add (one) interactive feature(s) that you would like to implement & showcase it in the sketch
- Write a paragraph describing which features you would use in processing to implement the interactive feature
- Hand in an electronic version of the sketch and the write-up
